ABOUT ME

I'm a Full Stack Developer who enjoys building websites and web apps.I work on both frontend (what users see) and backend (how it works behind the scenes).I use tools like HTML, CSS, JavaScript, and Node.js.I love learning new things and solving problems through code.My goal is to create user-friendly, fast, and useful web solutions.

EXPERIENCE

• 2024 - 2025

Govt. Polytechnic Mau

- Full Stack Developer (Fresher)
- Self-Driven Projects | Jan 2024 – Present
- Developed an Amazon Clone using HTML, CSS, and JavaScript to replicate real-world eCommerce functionality.
- Designed and built responsive UIs, and implemented interactive elements for a smooth user experience.
- Worked on complete web solutions – from frontend design to backend logic (if applicable).
- Practiced version control using Git and GitHub.
- Continuously learning new tools like React, Node.js, and MongoDB to improve development skills.
